FOREWORD

Selected Manpower Statistics (SMS) is published by the Washington Headquarters Services, Directorate for Information Operations and Reports (WHS/DIOR). The report provides basic work force data on active duty military, civilian, retired, and reserve military personnel of the Department of Defense (DoD). It is divided into the following sections:

- | | | |
|-------------|---|--------------------------------|
| Section I | - | Total DoD Personnel |
| Section II | - | Active Duty Military Personnel |
| Section III | - | Civilian Personnel |
| Section IV | - | Other Personnel |
| Section V | - | Reserve Personnel |

Each section has a short narrative with a general description of the contents and selected highlights, including increases/decreases from the prior fiscal year (FY) and general trends.

Although the focus of this publication is on summary data for DoD as a whole, many tables provide associated data for the Army, Navy, Marine Corps, Air Force, and other DoD Components.

NOTE:

Excluded from all total DoD strength figures are those full-time military personnel who are paid from other than active duty military personnel appropriations. This group is funded from appropriations for reserve components and Corps of Engineers civil functions. During FY 2003, the number was approximately 65,000.

INTERNET AVAILABILITY

This publication is no longer available in a bound, printed edition. It can be obtained through the Internet either by accessing DefenseLINK or the DIOR web site (<http://www.dior.whs.mil/mmid/mmidhome.htm>).

Within the Department of Defense (DoD), personnel strength is considered to be the sum of active duty military and civilian personnel. (See the Glossary of Terms.) This section provides an overview of DoD work force levels as of September 30, 2003, and presents personnel data by organizational component (Army, Navy, Air Force, etc.), location of personnel, and/or function (military or civilian). Complete data on the total number and percent distribution of active duty military and direct hire civilian DoD personnel, by state, are provided. Historical data on trends in DoD personnel strength are also provided.

Highlights

Table 1-1 shows the active duty military personnel strength as 1,434,377 for September 30, 2003. This figure is up 22,743 from the comparable FY 2002 figure. Total DoD civilian employment (direct and indirect hire) is 703,456, down 5,240 from the FY 2002 figure of 708,696.

SECTION II

ACTIVE DUTY MILITARY PERSONNEL

SECTION II - ACTIVE DUTY MILITARY PERSONNEL

General

This section contains a variety of data on active duty military personnel. Data are provided for FY 2003 by Service, type of personnel (officers, enlisted, or officer candidates), location, and/or pay grade. Extensive historical data are provided in several areas, including trends in military personnel strength, enlistment and reenlistment trends, the age distribution, and the estimated educational levels of active duty military personnel. Other tables provide data on the number of active duty female personnel and the number of military dependents. Statistics on the number of personnel serving in, and the number of casualties resulting from, major armed conflicts in which the United States has been engaged are also provided.

The particular conditions and/or limitations affecting the data in each table are explained in historical notes, as applicable.

Highlights

As of September 30, 2003, there were 1,434,377 active duty military personnel. This is an increase of 22,743 (an increase of 4,897 officers, an increase of 17,775 enlisted and an increase of 71 cadets and midshipmen) from the FY 2002 figure. The "Undistributed" region accounted for most of the total force increase. For the last five years, the officer/enlisted ratio has been between 5.2 and 5.5. The largest increase of officer personnel was in the 1st Lieutenant/Ensign category, while the largest decrease among enlisted personnel was in pay grade E-2.

DEPARTMENT OF DEFENSE
HISTORICAL BACKGROUND AND NOTES

1. Officers include warrant officers, field clerks, and nurses. Enlisted personnel include cadets and midshipmen from the U.S. military academies at West Point, Annapolis, and Colorado Springs, as well as other officer candidates. Both officer and enlisted personnel data exclude figures on the Coast Guard.
2. Data for the year shown are as of June 30 beginning with 1878 for Army, 1900 for Navy, and 1798 for Marine Corps. For prior years, the as of date is the month for which records most completely reveal the total strengths of each Service. In some instances, incremental reports of different dates had to be used to compile a Service total, with the result that the strength shown is not for any particular point in time during that year. Data subsequent to 1976 are as of September 30.
3. Army data begin with 1789, the year in which the Department of War (now the Department of the Army) was established by the new U.S. Congress. Although a "regular" Army has existed continuously since that time, the total strengths cannot be documented from available personnel on extended active duty with the Army (regulars, volunteers, militia, inductees, reserves, and National Guardsmen) and U.S. Military Academy cadets. Data prior to 1861 are for regular Army and cadets only, except for 1836-1840 (Seminole Indian War) and 1846-1848 (War with Mexico). Source documents for other years do not contain adequate strength statistics on nonregular personnel called up during the War of 1812 or for short periods of service during the numerous Indian disturbances. Army data also include strengths of the Army Air Corps and predecessor agencies.
4. Navy strengths for the period 1794-1798 are estimates of the number of "on board" personnel authorized by the U.S. Congress to reestablish a Navy which had existed from 1775 to 1785 under the Continental Congress. A separate Navy Department was authorized and organized in 1798. During the early years of the Navy, crews were usually contracted for a specific sailing or mission rather than a continuous tour of duty. The strengths shown are more in the nature of an average and are, therefore, marked "estimated." Data excluded an unknown number of Naval militia, supplied by the states, who served during the War of 1812, the Mexican War, and the Spanish-American War.
5. Marine Corps strengths as shown begin in 1798, the year in which the Navy Department and Marine Corps were authorized by an Act of Congress. The Marine Corps was founded in 1775 by the Continental Congress and served during the Revolutionary War, but ceased to exist in 1783. The Marines were reestablished in 1794 when Congress authorized the rebuilding of the Navy. A small number of Marines were used as guards on Navy ships. However, records do not reveal reliable strength data before 1798.

TABLE 2-23
Department of Defense
HISTORICAL BACKGROUND AND NOTES

- A. Data prior to World War I are based on incomplete records in many cases. Casualty data are confined to dead and wounded and, therefore, exclude personnel captured or missing in action who were subsequently returned to military control.
- B. Marine Corps data for World War II, the Spanish-American War, and prior wars represent the number of individuals wounded, whereas all other data in this column represent the total number (incidence) of wounds.
- C. Not known, but estimates range from 184,000 to 250,000.
- D. As reported by the Commissioner of Pensions in the annual report for fiscal year 1903.
- E. Authoritative statistics for the Confederate forces are not available. Estimates of the number who served range from 600,000 to 1,500,000. The final report of the Provost Marshal General, 1863-1866, indicated 133,821 Confederate deaths (74,524 battle and 59,297 other) based upon incomplete returns. In addition, an estimated 26,000 to 31,000 Confederate personnel died in Union prisons.
- F. Number serving covers the period April 21 to August 13, 1898, while dead and wounded data are for the period May 1 to August 31, 1898. Active hostilities ceased on August 13, 1898, but ratifications of the Treaty of Peace were not exchanged between the United States and Spain until April 11, 1899.
- G. Includes air service. Battle deaths and wounds not mortal include casualties suffered by American forces in northern Russia to August 25, 1919, and in Siberia to April 1, 1920. Other deaths cover the period April 1, 1917, to December 31, 1918.
- H. Data are for the period December 1, 1941, through December 31, 1946, when hostilities were officially terminated by Presidential Proclamation, but a few battle deaths or wounds not mortal were incurred after the Japanese acceptance of the Allied peace terms on August 14, 1945. Number serving from December 1, 1941, through August 31, 1945, were: Total - 14,903,213; Army - 10,420,000; Navy - 3,883,520; and Marine Corps - 599,693.
- I. Includes Army air forces.
- J. Battle deaths and wounds not mortal include casualties incurred in October 1941 due to hostile action.
- K. Worldwide military deaths during the Korean War totaled 54,246. In-theater casualty records are updated annually.
- L. Number serving covers the period August 5, 1964 ("Vietnam era" begins) through January 27, 1973 (date of cease-fire). Deaths include the period November 1, 1955 (commencement date for the Military Assistance Advisory Group) through May 15, 1975 (date last American servicemember left Southeast Asia). Wounds not mortal exclude 150,332 persons not requiring hospital care. Casualty records are updated annually, including current deaths that are directly attributed to combat in the Vietnam Conflict.
- M. Coast Guard numbers are included with Navy. Report does not include one POW (Speicher). Casualty records are updated annually.
- N. The Marine Corps number serving is included in the Navy total.

SECTION III

CIVILIAN PERSONNEL

SECTION III - CIVILIAN PERSONNEL

General

Civilian personnel statistics in this section present personnel in the following categories: direct or indirect hires; those supporting military or civil functions; and those formerly subject to Office of Management and Budget (OMB) ceiling controls used to administer Presidential employment ceiling limitations and those exempt from the ceiling controls. (See the Glossary of Terms.) Data are provided which show the worldwide distribution of both direct and indirect hires. Additional tables display the data by location of personnel (region, area, and/or country) and by organizational component (Army, Navy, Air Force, or other DoD organizations).

Highlights

As can be seen in Table 3-3, the total DoD civilian workforce, subject to the former OMB ceiling, decreased by 5,891 in FY 2003. The number of direct hire civilian personnel decreased by 6,293, while the number of indirect hires increased by 402, all of whom were foreign nationals. Among the Military Departments, the Air Force reported a decrease of 2,126 and the Army a decrease of 754 civilian personnel, while the Navy reported an increase of 622. The civilian workforce for other DoD organizations decreased by 3,633.
